## IMMENSE

Tobacco Factory to Be Established in Louisville.

Will Give Employment to About 700 Men.

A Liverpool syndicate is making arrangements to build an immense tobacco manufactory in Louisville. The buildings will be of brick, some of them five and the others seven stories high. The plans are now being drawn and work will begin as soon as the weather permits, or at the farthest in the early spring. A representative of the syndicate has been in Louisville for some time arranging the preliminaries. Very little has been said about the matter, but the details are now all arranged and the contracts have been about closed for the buildings. The syndicate proposes to handle a great deal of tobacco. For some time past the company has been doing a rehandling business but concluded to go in the manufacture of tobacco for the Liverpool market on an extensive scale. The factory will be located on the Southern railroad, and the Board of Public Works has been asked to give the necessary privileges for railroad and other connections, as well as sewers. It is stated that about 700 men will be employed at the factory.

DR. CALDWELL'S  
SYRUP PEPSIN  
CURS CONSTITUTION.

GEO. WASHINGTON

Was President When Mrs. Snodgrass Was a Wee Girl.

On Thursday, January 8, occurred the 102d birthday of Katherine Snodgrass, of Millport Center, just south of Dunkirk, Ohio. Mrs. Snodgrass is commonly known as "Aunt Katy," and was born near Stanton, Va., January 6, 1796. She has lived under every President of the United States. Her husband was a soldier in the war of 1812, which entitles her to a pension from the United States Government. She is cheerful and intelligent and goes out visiting her friends. She has lived in the neighborhood 91 years. She is the oldest member of the Woman's Relief Corps, Department of Ohio, and probably the oldest in the United States.

Sometimes it seems to weary woman that she must continually give up. The simplest and easiest work becomes an almost insurmountable task. Nervousness, sleeplessness and pain harass her and life seems hardly worth the living.

Dr. Pierce's Favorite Prescription was made for her. Dr. Pierce's Golden Medical Discovery was made for her. The former is for the distinctly feminine, the other for her general system. Together they supply a scientific and successful course of treatment. "The Favorite Prescription" restores healthy, regular action to the organs distinctly feminine. It forces out all impurities, strengthens the tissues, allays inflammation. The "Golden Medical Discovery" makes appetite, helps digestion, promotes assimilation, fills out the hollows in the cheeks and neck with good solid flesh and brings back the gladness glow of girlhood.

Send 21 cents in one-cent stamps to the World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page Common Sense Medical Adviser, illustrated.

### Hanged Himself With a Plow Line

William Finney, a farmer aged 50 years, living ten miles South of Mayfield, committed suicide by hanging himself with a plow line the hollows in the joints in his home. He left his family around the fire and went into an adjoining room, where he was found dead fifteen minutes later. He had been despondent for some time. He leaves a wife and five grown children.

### Harvey Meyers on South Cincinnati.

The plan is to combine the Kenton and Campbell county cities in one, and to be known as South Cincinnati. Mr. Harvey Meyers, an ex-speaker of the Kentucky Legislature, and a resident of Covington of this scheme said:

"The two-thirds vote of the people interested, as required by law, could never be obtained," he said. "Covington and Newport have for years been rival cities. One of them is Democratic and the other Republican and the adoption of a law combining them would involve politics. To show you an instance of the feeling between the two places, when Covington built a new water-works along side of Newport's, Newport refused to go in with us, although Newport was more in need than we were. I do not think South Cincinnati will ever be a reality."

### A HOME REMEDY.

For the Cure of Colds and La Grippe.

La grippe and influenza, cold in the head or on the lungs, are not only distressing maladies, but are very dangerous as well. Cold on the chest is an inflammation affecting the air-passages and vessels leading into and through every portion of the lungs. The inflammation may be so violent as to cause death in a short time if not quickly reduced, or it may linger and drag as a bad cold of more or less severity. What is true of a cold is equally true of la grippe. Even a mild condition is liable to turn quickly into acute pneumonia, or what is worse, galloping consumption. The breathing tubes become so sensitive that the least exposure, the slightest draught, change of clothing or of the weather, is sufficient to cause fresh cold, terrible cough, pain and fever. Cough is the foremost symptom, and it may be harsh and dry or loose and broken, with much expectoration. It is always annoying, keeping up a constant irritation and excitement in the sore and inflamed tubes. There is pain and tenderness under the breastbone, sometimes of a raw and tearing nature. Hoarseness, huskiness, wheezing, or loss of voice, chilly sensations, sore throat, aching joints and catarrh of the head. As the disease advances there are night sweats, cold fever, loss of flesh, spitting of blood or hemorrhage, and the patient has the appearance and symptoms of consumption. The old way of treating a cold is too well known to need any explanation; the new way—the better way—is with Lightning Hot Drops. This remedy is especially valuable in colds, la grippe, influenza, coughs, hoarseness, etc. Indeed for la grippe and influenza it may truly be said to be a specific, while for breaking a cold or relieving hoarseness it is without an equal.

### Boom Confidence Again.

A confidence Bureau, a new thing in a political campaign, is the latest adjunct to the Hanna headquarters, but the confidence which it endeavors to manufacture bears a striking resemblance to the newspaper confidence which was expected to follow the election and inauguration of McKinley, and which is now declared to be due immediately after the passage of the Gage financial scheme.

### SEVEN DOCTORS FAILED.

A Case of Systemic Catarrh in Its Worst Form Cured.

Invalids would do well to read the following letter recently written to Dr. Hartman by Mr. Abe Miller, of Stillville, Indiana. Not only read it, but ponder on it. Not only ponder on it, but act upon it. He writes:

"A word of praise to your medicines. I began taking Peruna the 20th of February, 1897. I was all worn out. My weight was 134 pounds. I was weak and almost ready to go to bed. I had catarrh, asthma and kidney trouble. I have taken ten bottles of Peruna and I weigh 161 pounds. I feel as if I could do as much work as any man on earth. I had tried seven doctors; some of them as good as there were in the State. But none of them did me any good. At last I saw Peruna advertised. Then I began taking it and it has cured me. So I recommended it to my neighbor and it is doing the work for him. He has gained four pounds from the use of three bottles."

Send to the Peruna Drug Manufacturing Company, Columbus, Ohio, for a free book on catarrh written by Dr. Hartman.

Ask your druggist for a free Peruna Almanac for 1898.

### To Those in Debt.

Make a full estimate of all you owe, advised Benjamin Franklin, and of all that is owing to you. Reduce the same to a note. As fast as you collect, pay over to those you owe. If you can not pay, renew your notes every year, giving the best security you can. Go to business diligently, and be industrious. Waste no idle moments; be very economical in all things; discard all pride; be faithful to your duty to God, by regular and hearty prayer morning and night; attend church Sunday, and do unto all men as you would they should do unto you.

If you are too needy in circumstances to give to the poor, do whatever else is in your power cheerfully, but if you can do so, help the poor and unfortunate.

Pursue this course diligently for seven years, and if you are not happy, comfortable and independent in your circumstances, come to me and I will pay your debts.—The Commonweath.

### Lost Pig.

Mr. Newton Ratliff, of Bath county, gave Charley Nesbitt a pig; it was a little spotted pig, and Charley thought much of the pig because it was a nice one and because it was a gift. Charley made a pen for his pig—a nice one, but the pig was not fond of confinement and got out again and again, and now it is gone and Charley would be very glad if someone would come and tell him where it is for he wants the pig.

Description without pedigree.—Age about two months, and spotted; good looking in the face; front and hind right feet white; short from tip to tip. It is a sow pig.

J. A. Perkins, of Antiquity, Ohio, was for thirty years needlessly tortured by physicians for the cure of eczema. He was quickly cured by using DeWitt's Witch Hazel Salve the famous healing salve for piles and skin diseases. J. B. Tipton.

### Training Children.

The hope of our country, socially, politically, morally, and religiously, lies in the training of the children. It is an important step toward the eradication of a number of evils which have grown to such magnitude as to threaten the downfall of the republic. The adequate training of children will not only cure these evils but will bring priceless blessings to the country, such as we do not, enjoy.

—Rev. C. D. Harris, Baltimore, Md.

A Baltimore man has a "History of Palestine and Asia Minor" printed in Amsterdam in 1638.

### CUT HIM TO DEATH.

United States Marshal Killed By a Prisoner in Tennessee.

John Hall, a special deputy United States Marshal, was killed by a moonshiner near Nashville, Tenn., on last Wednesday. Hall had arrested the moonshiner and the two were in a house playing cards when a difficulty arose between them, and the distiller of mountain dew attempted to escape but was prevented by a shot in the chin from Hall's pistol. Seeing that escape was impossible he turned upon Hall and literally carved him to pieces.

### Needn't Wait Any Longer.

An amusing incident is said to have occurred at the Grand Union Hotel, Louisville, the other night. It appears that a countryman who was unusually innocently ignorant of city ways came to the hotel with his son. The father retired early, but his son went out to improve the time by "aging the town."

About 12:30 a. m. the countryman came down stairs and inquired on the night clerk if his son had come in yet. He was told that he had not, and the father went back to his room. An hour later he again appeared before the night clerk and asked:

"Hain't Jack in yet?"

Again he was told his son was still out. The old man made several subsequent trips, and still his boy was among the missing. Finally at 3:30 a. m. he came wearily down the stairs and again asked if his boy had come in yet.

"No, he's not in yet," replied the night clerk.

"Well, guess he won't come in then. Guess you needn't wait any longer."

### Farmer Shoots Himself.

J. W. Nash, a farmer living near Louisville, Ky., was killed instantly Thursday morning, while out hunting by the accidental discharge of his gun. He was hunting with a double-barrel, breech-loading shot gun, one barrel of which he had fired at a flock of birds. In attempting to reload, the other barrel fired, tearing off the side of his head. He was about thirty-seven years of age and leaves a wife and eight children.

### How to Find Out.

Fill a bottle or common glass with urine and let it stand twenty-four hours; add lint or cotton linting indicates a diseased condition of the kidneys. When urine stands linen it is positive evidence of kidney trouble. Too frequent desire to urinate or pain in the back is also convincing proof that the kidneys and bladder are out of order.

### WHAT TO DO.

There is comfort in the knowledge so often expressed, that Dr. Kline's Swamp Root, the great kidney remedy, fulfills every wish in relieving pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold urine and scaling pain in passing it, or bad effects following use of liquor, wine, or beer, and overcomes that unpleasant necessity of being compelled to get up many times during the night to urinate. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists, price fifty cents and one dollar. For a sample bottle and pamphlet, both sent free by mail, mention the ADVOCATE and send your full post-office address to Dr. Kline & Co., Binghamton, N. Y.

The proprietors of this paper guarantee the genuineness of this offer.

### God's Giving.

God is the source of good. His nature is to give. Outpouring, bestowing, making better and more blessed—that is the way to love, his only expression. Every gift that is worth having, every true joy, every uplifting influence, every helpful possession is ours, not through our earning, but from his giving.—Rev. C. A. Miller, New York City.

## THE WONDERS

of Science—Lung Troubles and Consumption Can be Cured.

An Eminent New York Chemist and Scientist Makes a Free Offer to Our Readers.

The distinguished New York chemist, T. A. Slocum, demonstrating his discovery of a reliable and absolute cure for Consumption (Pulmonary Tuberculosis) and all bronchitis, throat, lung and chest diseases, stubborn coughs, catarrhal affections, general decline and weakness, loss of flesh, and all conditions of wasting away, will send three bottles (all different) of his New Discoveries to any official reader of the Mr. Slocum Advocate writing for them.

His "New Scientific Treatment" has cured thousands permanently by its timely use, and he considers it a simple professional duty to suffering humanity to make a trial of his infallible cure.

Science daily develops new wonders, and this great chemist, patiently experimenting for years, has produced results as beneficial to humanity as can be claimed by any modern genius. His assertion that lung troubles and consumption are curable in any climate is proven by "heartfelt letters of gratitude," filed in his American and European laboratories in thousands from those cured in all parts of the world.

Medical experts concede that bronchitis, chest and lung troubles lead to consumption, which, uninterrupted, means speed and certain death.

Simply write to T. A. Slocum, M. C., 88 Pine Street, New York, giving postoffice and express address, and the free medicine will be promptly sent. Sufferers should take instant advantage of his generous proposition.

Please tell the Doctor that you saw his offer in the ADVOCATE. 51-

### Republicans on Bimetallism.

Senator Hanbright voices the sentiment of every bimetallist Republican in Washington, who will help to defeat the scheme of the monetary commission. "The plan of the commission," he stated, "is to create new and extraordinary demands for gold, and as gold does not exist in quantities equal to such demands, a scramble for the yellow metal would certainly ensue. The whole argument of the commission, when shown of its platitudes, emphasizes the great necessity for a broader basis of our currency. This cannot be had out of the present limited gold supply. It can be secured through a rehabilitation of silver, thus increasing the volume of metallic redemption money."

### Kentucky Brides.

Old men continue to take young Kentucky brides. The women of that State are famed for keeping charms on hand and taking chances off hand. A woman of twenty-eight years ought to be able to judge for herself, however, what chances she takes with seventy-four years for the millions of dollars that make them so attractive.—Dallas, Tex., News.

Comedians are often indebted to Harry Du Val, Dr. Depew's secretary for bright ideas. He is always picking up and imparting bits of wit. During the long rainy spell some time since he overheard the following conversation:

"Molke, do you think it will stop raining?"

"Well, it always does."

### Joseph Blackford Dead.

Joseph Blackford, aged fifty-seven years, who was struck by a passenger Southern train near Lexington Monday, died Thursday night. He never regained consciousness. He was a well-known feeder of trotting horses.

It is estimated that an oak of average size, during a five months life, in leafy away from the trunk from the earth about 123 tons of water.

# Too Much Knife!

The use of the surgeon's knife is becoming so general, resulting finally in such a large number of cases, as to occasion general alarm.

Mr. William Walpole, of Walhoboro, South Dakota, writes: "About three years ago, there came under my left eye a little blotch about the size of a small pea. It grew rapidly, and shooting pains ran in every direction. I became alarmed and consulted a good doctor, who pronounced it cancer, and said that it must be cut out. This I would not consent to, having little faith in the size of a small pea. Indiscriminate use of the knife. Reading of the papers made me feel that I determined to give the medicine a trial, and after I had taken it a few days the cancer became irritated and began to discharge. The discharge ceased, leaving a small scar, which finally dropped off, and only a healthy little scar remained to mark the place where the destroyer had held sway.

## A Real Blood Remedy.

Cancer is in the blood and it is folly to expect an operation to cure it. (Quoted from a letter to the author.)

## Extracts and Thoughts from Gov. Bradley's Message.

On last Tuesday morning Gov. Bradley's message was sent to the General Assembly. We give some of the most important matters considered:

State's Bonded Debt \$3,483,990.86  
Floating Debt past due 1,562,125.33  
Total Indebtedness 5,046,116.19  
Sinking Fund Resources \$86,612.73  
Balance of Indebtedness 4,459,503.47

The State has \$400,000 in pike stock which is valued at \$100,000 because of the spirit of lawlessness which prevails and so estimated in the resources above. He laments the prevalence of the mob spirit, and especially scolds the officials of Hancock county who failed to punish the inynchers of the negro Bushrod who was hanged by a mob in the night at Hawesville. He recommends more stringent punishment for attempted rape giving the jury the power to inflict the death penalty where injury is inflicted upon the victim.

He has much to say about toll-gate raiders, and condemns the spirit of lawlessness. He again recommends the passage of a law giving damages to the relative of the victim of mobs. He says: "I recommend that the Chief Executive of the State be empowered to place troops at the gates with the right to collect tolls and account to the proper authority, to be retained in duty by him as long as he thinks necessary. It is unjust that counties which are at peace should be compelled to assist in paying for State troops so employed. In every instance where they have been or may be so employed the county where they have acted should be compelled to bear the burden. This may be said to be a severe and costly remedy, but it is better by far than the prevalence of anarchy."

He also bitterly arraigns peace officers, charging that they have been in sympathy with raiders.

"If this spirit of lawlessness is not stemmed out the day is not far distant when the State will be completely under the control of swashbucklers and highway robbers, who will rob, murder and steal at will."

He recommends the abolishment of the Bureau of Agriculture and Register of Land Office and advises that the office of Jailer be consolidated with that of Sheriff, and appointment of non-partisan board to control prisons and charitable institutions is also recommended. The Separate Coach Law he declared unjust and its repeal warmly advocated. He also calls for prohibition of sale of cigarettes and cigaret papers.

Recommends additional legislation for Houses of Reform; relief for Court of Appeals; more stringent regulations for punishment of election frauds and many minor matters.

It recommends that the law be changed so that cases involving less than \$900 be not allowed to go before the Court of Appeals. A tax of one-half of a cent is recommended to be levied for the state guard.

Perhaps the most exhausting drain on the Treasury is "criminal expendi-

tures." In this are compelled jury fees, witness fees, sheriff's, marshals', jailers' and constables' fees, costs of examining courts, etc., etc.

In the United States Courts and the courts of nearly every state in the Union, this difficulty is largely obviated by laws empowering the jury to pass alone on the question of guilt and its degree, and conferring power on the court to fix the punishment.

The Treasury is depleted by excessive witness claims and guard fees. Witness fees during the last fiscal year amounted to \$53,000. Witnesses living within five miles of the Court House should not receive any pay; those residing within ten miles should be paid fifty cents per day; and those in the country, whose residences are more than ten miles distant from the Court House, should receive \$1 per diem.

During the last fiscal year the expenditures for guards with convicts to Frankfort amounted to \$9,927. Under the present law it has been held that guards are entitled in such cases to ten cents per mile going and returning. In my judgment the intention of the statute was to allow ten cents per mile one way, which is amply sufficient.

Under the present laws a large number of persons are yearly sent to the penitentiary who should be fined and compelled to work out the same on the county roads.

He recommends that the charitable and penal institutions be managed by a board of three non-partisan commissioners. Charities should not be used to promote political ends. These commissioners, if need be, can be selected from other States, and are to recommend to the Governor the appointment of officials subject to confirmation by the Senate. Should such a law be enacted, he suggests that it be operative January 1, 1899.

He thinks the State prisons should not be managed by the Sinking Fund Commissioners.

New State buildings and Governor's House are asked for.

There are these and others treated in detail which we cannot give. Many of the Governor's suggestions are worthy careful consideration.

## City Council.

At the last meeting of the City Council the oath of office was taken by the following officers:

Mayor—Geo. W. Baird.  
Treasurer—J. O. Green; bondsmen, W. W. Thompson and T. J. Riggs.  
Clerk—T. D. Jones; bondsmen, J. G. Trimble.

Wagoner—J. A. Conroy, bondsman W. W. Thompson.

The Street Repair Committee recommended that the city own its own quarries and receive bids for placing rock from these quarries on the street. Accepting the suggestion, the Council rejected all bids for rock under previous arrangements and instructed the committee to investigate for the purchase of quarries. The committee is composed of DeLaven, Conroy and Burbridge and City Engineer Leveque, and will report January 11.

J. W. Burroughs was appointed a Deputy to Chief of Police Wilson, for the collection of delinquent in the City Court.

Committees were appointed to settle with ex-Treasurer Winn and Judge Ben Turner for 1897.

A committee composed of Wilson and Keene and the City Attorney was appointed to draft an ordinance licensing all purveyors of meat.

Representatives of the C. & O. railroad had given assurance the railroad committee that the speed of passenger trains entering the city would be reduced to 12 miles an hour and that the streets would not be obstructed by cars for a longer time than 10 minutes.

An ordinance was passed assessing "Peddlers or itinerant retailers of goods, wares or merchandise of any description per day \$15. This is in effect from its passage.

Rev. B. B. Bailey is holding a meeting with the Baptist church. Large crowds are in attendance and the meeting begins with flattering prospects of success.

Where the blood loses its intense red—grows thin and watery, as in anemia, there is a constant feeling of exhaustion, a lack of energy—vitality and the spirits depressed.

## Scott's Emulsion

Of Cod-liver Oil with Hypophosphites of Lime and Soda is peculiarly adapted to correct this condition. The cod-liver oil, emulsified in an exquisite fineness, enters the blood direct and feeds its every corpuscle, restoring the natural color and giving vitality to the whole system. The hypophosphites reach the brain and nerve centres and add their strengthening and beneficial effect. ## A Nation's Safeguard—The Bible.

It was never known who composed the following description of the Bible. It was found in Westminster Abbey, nameless and dateless.

A nation would be truly happy if it were governed by no other laws than those of the Blessed Book.

It is so complete a system that nothing can be added to it.

It contains everything needful to be known or done.

It gives instructions to a Senate, authority and direction to a magistrate.

It cautions a witness, requires an impartial verdict of a jury, and furnishes the judge with his sentence.

It sets a husband as a lord of the household and a wife as the mistress of the table, tells him how to rule and her how to manage.

It prescribes and limits the sway of the sovereign, the ruler, and the authority of the master, commands the subjects to honor, and the servant to obey, and promises the blessing and protection of the Almighty to all that work by its rules.

It promises food and raiment, and health to the poor.

It points out a faithful and eternal guardian to the departing husband and father, tells him to whom to leave the fatherless children and whom his widow is to trust, and promises a father to the former and a husband to the latter.

It teaches a man to keep his house in order and know his will, it appoints a dowry for his wife, and entails the right of the first-born and also shows how the young branches shall be kept.

It defends the rights of all and reveals vengeance to the defaulter, over-reacher and trespasser.

It is the first book and the oldest book in the world.

It contains the choicest matter, gives the best instruction, affords the greatest pleasure and satisfaction that was ever enjoyed.

# AN OPEN LETTER To MOTHERS.

WE ARE ASSERTING IN THE COURTS OUR RIGHT TO THE EXCLUSIVE USE OF THE WORD "CASTORIA," AND "PITCHER'S CASTORIA," AS OUR TRADE MARK.

I, DR. SAMUEL PITCHER, of Hyannis, Massachusetts, was the originator of "PITCHER'S CASTORIA," the same that has borne and does now bear the fac-simile signature of *Chas. H. Fletcher* on every wrapper. This is the original "PITCHER'S CASTORIA," which has been used in the homes of the Mothers of America for over thirty years. LOOK CAREFULLY at the wrapper and see that it is the kind you have always bought on the and has the signature of *Chas. H. Fletcher* wrapper. No one has authority from me to use my name except The Centaur Company of which Chas. H. Fletcher is President.

Dr. Johnson and Books.

Dr. Johnson had the greatest contempt for any book which was not philosophy or pure literature. Once, when he was visiting Samuel Foote, he began running over his books, opening the books so wide as almost to break their backs, and then flung them down by one on the floor with contempt. "Zounds!" said Foote, who was in torture all the time. "Why, what are you about there? You'll spoil all my books!" "No, sir," cried Johnson, "I have done nothing but treat a pack of silly plays in top's dresses just as they deserve, but I see no books."—San Francisco Argonaut.

By shaking the eggs of the common pike double monsters may be produced, and Mr. J. A. Hyler has given good reasons for concluding that the double goldfish of the Japanese, some of which have two heads, others two tails, were originally produced in this way and fixed by artificial selection.

## Light And Shade.

Perhaps as you look back over the past year, there are some bits of experience that seem very dark to you, though they were even darker when you passed through them. You have only to reach the right perspective to see that the shadows were not the least important part of your life.

Rev. Hugh S. Johnson tells a story of a queen sitting for her portrait who commanded that it should be painted without shades.

"Without shadows!" exclaimed the astonished artist, "I am afraid your Majesty is not acquainted with the laws of light. There can be no good portrait without shading."

No more can there be developed Christian character without sorrow, and to the pure in heart the vision brightens through all the clouds, so that with fondest aspirations smitten, the dearest plans hatched, alone and comfortless, the soul is still able to say, like Mrs. Sigourney, the poetess, when bereft of her only son, "God's time and will are beautiful, and through blinding tears I would fain give Him praise."

Joe R. Williams, for several years editor of the Midway Clipper, sold his paper to J. O. Cooper, recently editor of the Henry County Local, and W. E. Italey, ex-postmaster of Midway.

## SOCIAL EVENTS.

Miss Bertie Cloud entertained a select number of friends on last Tuesday evening.  
Miss Ruth Barrow entertained a number of her friends at her home near the Levee, on Saturday evening. It was an enjoyable affair.  
Mr. Ed. Gulliford gave a delightful dance to a number of his friends at his home on last Wednesday evening. A most palatable luncheon was served.  
There was a dance given at the country home of Wm. Wood in honor of James Scobee on last Friday evening. The music was furnished by Fisher's orchestra, and a grand old time was had. About thirty couples were present and the tripping of the light fantastic was continued far into the evening. It was one of the most pleasant social events of the season.  
The Montgomery Girls Dancing Club gave a very swell dance at the home of Mr. Robert Marshall about one mile from this city on last Tuesday evening. The beautiful rooms of the grand old mansion were tastefully decorated and the merry dancers kept pace with the melodious music they could not help but express their appreciation of the royal manner in which they were being entertained. Miss Carrie Anderson, stepdaughter of Mr. Marshall and one of the most popular young ladies in the county was the hostess and the gracious manner in which she received her friends on this occasion has added more than ever to her popularity. Delightful refreshments were served. Miss Anderson entertained again Friday evening.  
On the fifth of this month (Old Christmas) was the anniversary of Mr. William L. Stout one of the substantial men and farmers of Montgomery county. On that day a score of his friends and neighbors gathered themselves together at his home and were royally and most hospitably entertained. Mr. Stout was assisted in the entertaining by his handsome and accomplished daughters Misses Sadie, Estelle, Cora and May. It was a social meeting of the elderly gentleman friends of Mr. Stout and truly they were received and treated with such kindness and hospitality as only such persons as Mr. Stout and his daughters are capable of. The menu was sumptuous and the music grand. To say that each and every gentleman truly enjoyed himself and went away happy but feebly expresses it. Mr. Stout is certainly a host of hosts and he and his charming daughters certainly do know how to entertain and make their guests happy. The individuals making the score were Messrs. N. B. Lloyd, William Coon, Moses Lewis, W. T. Fitzpatrick, T. J. Anderson, Wm. Anderson, Jack Ragan, James W. Gatewood, J. M. Oliver, Wm. E. Jones, James R. Sharot, Robt. Coons and Robt. Pittman, Robert Monjoly, John Berry, Green Reznor, Henderson Phillips, Geo. Blevins and Mr. Stout made up the score. The only lady present besides the family was Mrs. Green Ragan who was a relative of the family.

Japan tonight at Court House.

## DEATHS.

Died, on last Friday morning, the 7th inst., of consumption, Mrs. Jennie L. Morris, in her 44th year. Mrs. Morris was a native of Virginia and was Miss Jennie L. Riggs. In 1880 she was married to W. L. Morris, and in '86 they came to this place where Mr. Morris died four years ago. Mrs. Morris had been a member of the Baptist church for more than 25 years and a faithful christian she was, always in her place at worship when it was possible for her to be there. She leaves six children, the oldest sixteen years and the youngest five. Her funeral was preached at the Baptist church by the pastor, Rev. W. J. Bolin, and her remains were buried in Macphol cemetery. Mrs. Morris was an exceptionally good woman—one with the strongest faith. "The Lord will care for his" was her belief, and when the death Jordan was in sight and she felt the deadly chill, she did not shrink. Her only wish was that the children be kept together. This good woman and her faith will long linger with those who knew her best.  
**Eighty-nine Years Old.**  
And Reads Without the aid of Glasses.  
Mr. Thomas Wren, one of the earliest county settlers, having come to this state in the year 1812, spent a portion of the Christmas holidays visiting the family of A. Schlegel. Mr. Wren is the much beloved grandfather of Elizabeth and George. He is a wonderfully well preserved old gentleman, enjoying good health at the advanced age of eighty-nine, which year of his life was ended with the last day of the old year. Upon that day he read a four column story in a newspaper without the use of glasses. May he live to enjoy his one hundredth anniversary is the wish of his many friends.  
**Trespasser Caught.**  
Many chicken coops have been raided, and the owners have been much worried. Last year Mr. Sam Fizer shot twice at a thief. On Sunday night an intruder on mischief bent again went to his coop and was captured. Mr. Fizer's dog Jack stopped the thief, and on yesterday the death penalty was inflicted without trial by jury. The "possum" will be eaten.  
**Poul Murder Avenge.**  
The double murderer of San Francisco, Theodore Durrant, was hanged at a State prison of California on last Friday. His two victims were Blanch Lamont, who disappeared April 3, 1895, and Minnie Williams, who disappeared very soon after. The crimes were committed in Emanuel Baptist church. He was never tried for the murder of Miss Williams. The legal proceedings have been very remarkable, and every effort possible has been made to save the criminal. The law has triumphed and the earth is rid of this fiend.

## MARRIAGES.

Miss Ottilie McGarvey, of Lexington, was married to Mr. Walter Taylor, of Cincinnati, at Broadway Christian church, on last Tuesday evening.  
Miss Bettie C. Bird, of Shelby county, a most excellent young woman, cousin of Mrs. J. C. Thompson and Miss Margaret Stephens, was married January 5th to Mr. William Arnot, a prominent real estate dealer of Lexington.  
On Tuesday morning, January 4, 1898, there appeared at the Advocate office J. W. Wilson and Miss Jennie M. Enos, young people of this county, seeking the service of our junior editor in a consummation of love's dream. We laid aside the duties of office and having been assured that the requirements of the law were fulfilled, we suggested our willingness to accompany them to where they wished to be married. We soon observed that the location was a matter of indifference, so suggested that the marriage take place in the Advocate office. We invited the office boys to witness the ceremony and dismissed the bridal couple with our best wishes.  
Hear Miss Oldham at the Court House tonight.  
**RELIGIOUS.**

**Resolution.**  
The following resolution was adopted at a call meeting of the Ladies' Missionary Society of the Baptist church:  
Our Heavenly Father has removed from our midst our dear friend and co-worker, Mrs. Jennie Morris, and in view of the loss our society has sustained by her removal, and the still heavier loss sustained by those who were nearest and dearest to her, be it Resolved, That it be a fitting tribute to the memory of the departed to say that we mourn for one who was in every way worthy of our esteem and love.  
That we sincerely condole with the family of the deceased in their sorrow and commend them for consolation to the tender and merciful Father who remembers his children in their affliction.  
That this sincere and heartfelt testimonial of sympathy and love be published in the Mt. Sterling Advocate and forwarded by the Secretary of the meeting to the relatives of our departed friend.  
Mrs. NELSON H. TRIMBLE, Mrs. NANNIE E. REED, Miss WALTER C. DONNOHUE.

### Mr. M. O. Cockrell Resigns.

Mr. M. O. Cockrell, of Mt. Sterling, Division Deputy Collector in the Seventh Internal Revenue District for the last four years, and prospective appointee of Judge Cooper as Master Commissioner of Montgomery county, has tendered his resignation to Collector Roberts, to take effect at once, and it has been accepted. Mr. Cockrell is one of the best men ever in the revenue service in this district, and he retires with the esteem and good will of all with whom he has been associated. He will make a capital Master Commissioner, and Judge Cooper is to be congratulated on his selection.

On receipt of Deputy Cockrell's resignation to take effect at once, Collector Roberts was compelled to go to the civil service eligible list for his successor, and was fortunate to find at the head of the list of those eligible for Deputy Collectors the name of Mr. Henry Clay Herndon, of Catesburg, a leading Eastern Kentucky Republican, who held the same position under Collector McDowell with credit to himself and worthy chief. Mr. Herndon was commissioned today and enters upon his duties tomorrow. Mr. Cockrell is the first Seventh District Democratic Deputy Collector to resign and this is the first vacancy Collector Roberts has had a chance to fill from the civil service eligible list. Leader, January 7th.

### Card of Thanks.

I take this method of thanking the dear friends of Mr. Jennie Morris for their many kindnesses during sickness and after. No language is adequate to express the appreciation of the family. With love and appreciation I shall ever remember the good people of Mt. Sterling.

Respectfully Yours,  
John D. Yarrington,

### IN HONOR

Of the Late Rev. Green Clay Smith.

A handsome monument will be erected in Washington, D. C., on Decoration Day, in honor of the late Rev. Green Clay Smith. The model for the shaft was made in Rome, Italy, under the auspices of the Union Veterans' Union, who appropriated the funds for the memorial at their annual meeting at Lima, Ohio. The monument is polished granite and will resemble that of Sheridan, also in Arlington cemetery. It is sixteen feet high and eighteen feet across the base. The bronze tablet which will appear near the foot of the shaft bears a life-size portrait of the late Mr. Smith, encircled by a wreath of oak and laurel leaves, and under it is the name of the dead gospel preacher, soldier and statesman, and beneath this is an open book which will contain his military and civil records.

Rev. Green Clay Smith was born at Richmond, Ky., July 2, 1839. He entered a preparatory school at Danville, and graduated from the Transylvania University in 1859. He studied law under his father, Hon. John Speed Smith, and graduated at Lexington Law School in 1858. He was a partner of his father until 1858, when he removed to Covington and continued his practice. Prior to this, and when a youth, he was a soldier in the Mexican war. In 1860 he was elected to the Kentucky Legislature. He entered the Federal army in 1861, and attained the rank of Major General. He was elected to Congress in 1863, and at the close of the second term was appointed Governor of Montana, which position he occupied with honor and credit until 1868, when he resigned and entered the gospel ministry. His first pastorate

### Fighting Plutocracy:

The New Time in its January number sounds the keynote of the opposition to the currency plan of President McKinley and Secretary Gage. This able magazine is now the recognized leader in the fight against the money power. "The Wolcott Commission and Its Results" is the subject discussed by Charles A. Towne, the brilliant chairman of the Silver Republican National Committee. He handles Comptroller Eekins without gloves, and charges him with dense ignorance on the subject under discussion. Mr. Towne accuses the Republican party leaders with despicable duplicity and with betrayal of solemn pledges.

"The Menace of Plutocracy" is discussed by Congressman M. W. Howard, of Alabama. Among the famous contributors to this splendid number are W. H. H. Locky, of the English Parliament; Congressman D. B. Henderson, of Iowa; Congressman Stark, of Nebraska; Prof. J. H. Commons, of Syracuse University; Hon. John C. Bradshaw, who treats of "Slugs Tax and Lobby"; John W. Presidential, Senator William M. Stewart, Prof. Frank Parsons and many other of the best writers and thinkers of the country.

Twenty-five illustrations, including several striking cartoons, are scattered through the pages of the January New Time. This magazine has passed the \$50,000 mark, and is a power to be reckoned with. Chicago has at last a magazine of the first rank. Publishers, Charles H. Kerr & Company, 56 Fifth avenue, Chicago.

At Winchester one of the best sales of tobacco of the present season was made. Thomas C. Robinson and F. M. Poor sold to Charles B. Stewart the entire crop of 15 acres, amounting to 73,555 pounds at 15 cents a pound. The total amount paid was \$4,083.25 or \$273.55 an acre.
